Release - Immediate.

October 25, 1933.

34TH ANNUAL GAME LAW SUMMARY

The U. S. Department of Agriculture has just issued "Game Laws for the Season 1933-34, a Summary of Federal, State and Provincial Statutes," by H. P. Sheldon and Frank G. Grimes of the Bureau of Biological Survey.

This publication, the 34th annual summary by the Biological Survey, furnishes a brief and convenient synopsis of game laws in the United States, including Alaska, and in Canada, Newfoundland, and Mexico. It is prepared, says the bureau, to inform hunters, farmers, and others interested in wild life regarding the relation of restrictions on hunting to the future enjoyment of the sport and to aid Federal and State law-enforcement officials in the administration of the Migratory Bird Treaty and Lacey Acts and other laws for the conservation and restoration of game.

The summary is issued as Farmers' Bulletin 1717-F. Copies may be obtained at 5 cents each from the Superintendent of Documents, Government Printing Office, Washington, D. C.
